

HOW TO INSTALL YOUR NEW U.S. FLAG SET

Step 1. Place holder on window sill, side of house, porch rail, post, etc. Fasten with three enclosed scfews.

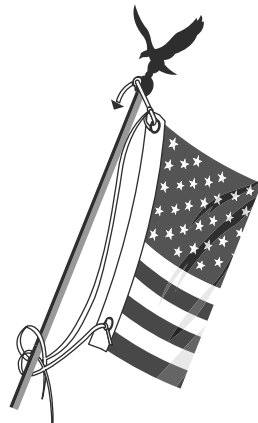

Step 2. Assemble flagpole by inserting tapered sections into non-tapered sections. Insert eagle ornament into top of assembled pole.

Step 3. Tie one end of halyard (rope) to flag at upper grommet (near stars). Pass other end through hole eagle and tie to flag at lower grommet (near stripes). Pull halyard and raise flag to top of pole.

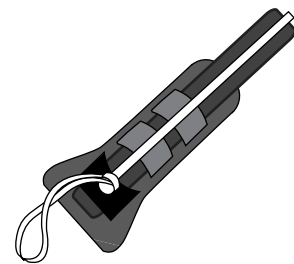

Step 4. Hold halyard in two lines, together and parallel. Loop halyard around pole, slightly below lower grommet. Pull halyard down, **over and against itself**.
(This keeps flag firmly against pole)

Note: Remember to take flag down at sunset and do not fly flag in rain or snow.

Care Instructions: Machine wash flag in cold water. Lay flat or hang to dry. Do Not fold while wet.

Step 5. Insert pole into holder. Pull halyard taut, tie to cleat and that's it!

P.S. Remember to take flag down at sunset and do not fly in rain or snow.
